

Welcome to our Dental Family! We are thrilled that you have chosen us to provide you with top quality dental care and we look forward to meeting you. We go above and beyond to make sure our patients experience a pleasant, comfortable and **on-time** appointment.

Your initial visit will include a personalized, very thorough exam by Dr. Finkelstein and time to relate your dental story. For your convenience, we have enclosed our New Patient packet which includes a personal health history, HIPAA- Notice of Privacy practices & Designation and our New Patient Profile. Please complete these forms PRIOR to your arrival to our office to ensure we can begin your appointment at the scheduled time.

If you have dental x-rays taken within the last year, please use the enclosed release form to request they be sent to us from your previous provider. This form should be sent directly to your previous dental office. If you prefer, we can request your records for you.

As a courtesy to our patients, we will be happy to research your dental plan benefits to determine an estimate of what your plan may contribute towards your treatment. Please bring your insurance card and identification to your first visit. We provide detailed, electronic claims billing and are committed to maximizing your benefits.

Thank you for the opportunity to help you reach optimum oral health. We look forward to a continued relationship with you.

Welcome to our Practice!

Sincerely,

The Team at My Plantation Dentist
